Notes:

¹This document reflects the best information available as of the date published. The information is subject to corrections.

²CA 7.0 can deploy to a site running on 7.0 or 6.4p3

³Site Analytics 2005.1 will also run on 6.3.0p2

⁴WebSphere is the only appserver supported on AIX

⁵The ATG platform is a framework and can support any browser that applications built on top of it are designed to support

¹¹ATG supports only Latin1 (ISO 8859-1) (Western European) languages with MSSQL at this time. The following additional languages are supported for use with MSSQL one at a time only: Vietnamese, Baltic, Arabic, Hebrew, Turkish, Greek, Cyrillic, Central European, Chinese (Traditional and simplified), Korean, Japanese, Thai

¹⁵ATG supports both the standard and enterprise editions of Oracle

¹⁶Customers may run databases on any operating system supported by the database vendor, except for mainframe operating systems (including zOS) which are not supported
